FAST

FASTENING & ASSEMBLY SOLUTIONS AND TECHNOLOGY

FAST explores the nuts and bolts of manufactured goods.

FAST covers not only mechanical and chemical fastenings, but also the materials they connect, and the subassemblies that they comprise.

It's about finding practical solutions to design and manufacturing challenges, by using engineered materials and components to best advantage.

FAST pays out engineering solutions with a bill of materials.

Every business owner knows marketing is not just important – it is vital. Healthy business growth of course means maintaining and increasing sales. But will your existing customers always deliver this growth? Perhaps... but if you are not actively pushing to be considered for the next new purchasing decision by existing and new customers – rest assured your competitors are.

FAST reaches **25,000** industry professionals – key decision makers for fastening, components materials and assemblies

- 4 times a year **FAST** magazine provides highly regarded essential editorial content buyers and specifiers use to keep up to date with the latest developments in their industry – helping to form opinions and decisions.
- Every week the **FAST** e-newsletter engages with exactly the right professionals, providing the very latest product information.
- Twice a year **Engineering Solutions Live** attracts buyers, specifiers and suppliers.
- Regular updates of the **FAST** online website ensure a constant interaction with the essential FAST marketplace

Marketing with FAST makes sure you are always in the right place at the right time.

FAST MAG

Published quarterly – Spring, Summer, Autumn & Winter - **FAST** magazine is the only manufacturing journal specifically for professionals in fastening, bonding, materials and assembly. Each edition of **FAST** reports on the latest essential news, information and developments for both design and production decision makers.

69%

of **FAST** readers read over half of each issue

80%

of readers have made a purchasing decision based on what they have seen in **FAST**

73%

of readers also visit the **FAST** website

78%

of **FAST** readers influence or are responsible for buying products and services

62%

of readers have contacted a company as a result of seeing them in **FAST**

CIRCULATION 25,000

With this uniquely relevant editorial coverage, **FAST** is universally recognised as the premium publication for these decision makers – making **FAST** the most important place to be seen if you supply fastening, bonding, materials or assembly solutions.

Using the industry-standard Mark Allen UK manufacturing census live database, **FAST** reaches only fully-researched and qualified decision makers in the UK – identified buyers, specifiers and users.
